Subject: Appreciation for Your Contribution to the Blockchain Application Project Course

Dear Mr. Tu Phan,

On behalf of RMIT University, I would like to extend my heartfelt gratitude for your invaluable contribution to the *Blockchain Application Project* course. Your expertise, time, and dedication as a **guest speaker, judge, and mentor** have been instrumental in enriching the learning experience of our students.

As the **capstone course** of the *Blockchain Enabled Business* major, this course plays a pivotal role in preparing our students for real-world challenges in the blockchain industry. Your insights and guidance have provided them with a unique opportunity to engage with industry perspectives, refine their ideas, and develop a deeper understanding of blockchain applications.

We truly appreciate the effort you have put into sharing your knowledge, providing constructive feedback, and mentoring our students throughout the course. Your contributions have not only enhanced their academic journey but have also helped bridge the gap between theoretical knowledge and industry practice.

Once again, thank you for your generous support and commitment to shaping the future of blockchain professionals. We sincerely hope to continue this valuable collaboration and look forward to welcoming you back to RMIT in future engagements.

Please do not hesitate to reach out if there is anything we can do to support our ongoing partnership.

With warm regards,

A handwritten signature in blue ink, appearing to read 'Minh Nhat Nguyen', with a stylized flourish at the end.
